

FIRE AND RESCUE DEPARTMENT

DIVISION CHIEF OF OPERATIONS

March 15, 2013

INFORMATIONAL BULLETIN #13-09

TO: All Fire and Rescue Personnel

FROM: Charles E. Drysdale, Division Chief/Operations *CED*

RE: **WILDLAND FIREFIGHTING EQUIPMENT PACKS**

In the very near future, an assembled pack of wildland firefighting equipment will be distributed to Engines 17-59. The equipment is already assembled for ease of deployment.

These packs will consist of the following:

- 2 – 100 foot rolls of forestry hose
- 2 – forestry nozzles
- 1 – wye
- 1 – reducer.

This equipment was purchased by Firehouse Subs to assist and improve our ability to suppress wildland fires. Please find a suitable place on your apparatus for this equipment. If you have any questions regarding the contents of these packs, please contact District Chief Don Blanton (F-6-C).
