1987 PROGRAM/SERVICES PRIORITIES

- Provide increased levels and opportunities for training all personnel, in conjunction with the Fire Training Division
- Place second Advanced Life Support (ALS) nontransport unit in service at Fire Station #43
- Increase staffing to ensure proper and safe operation of apparatus and equipment, and effective execution of established fireground tactics/strategies
- Add multi-purpose apparatus — to provide

optimum utilization of manpower and equipment, and use in concert with fire and rescue tactics/strategies

- Order a fireboat specifically designed for Jacksonville's current and projected needs
- Train all personnel in Incident Command and then implement the system — to ensure optimum use of manpower, apparatus, equipment and fireground tactics
- Design, dedicate and assist in the coordination of construction plans for the "Fallen Fire Fighter" memorial at the site of the new central Fire Station #1
